University of Mumbai, India

Summary

A results-oriented and visionary technology leader with over 19 years of extensive experience in building and scaling high-performing engineering teams and delivering innovative, user-centric software solutions. Proven expertise in defining technical strategy, driving product development from concept to launch, and fostering a culture of collaboration and excellence. Currently heading the engineering division for a \$15M product, with a strong focus on development, user experience, and cross-functional team leadership. Seeking to leverage a deep understanding of technology and business acumen to drive growth and innovation in a senior leadership role.

Professional Experience

MSCI Inc, Mumbai Dec 2013 - Present

Executive Director, Head of Application Development

- Spearheading engineering for a \$15M product, overseeing the full development lifecycle from strategy to delivery.
- Leading, mentoring, and managing a high-performing team of engineers, fostering a collaborative and innovative work environment.
- Partnering with product management, design, and other key stakeholders to define product roadmap and deliver exceptional user experiences.
- Architecting and implementing a unified, modular, and cloud-native technical vision for a suite of web-based Analytics Products.
- Championing the adoption of modern technologies and best practices to ensure scalability, performance, and a consistent user experience.

Vice President

- Led application development for Wealthbench, integrating analytics across Enterprise Risk, Equity/Fixed Income PM, and Factors.
- Architected and developed high-level, dynamic web applications using Angular and Node.js.
- Championed UX and User-Centered Design, establishing UI standards for consistency across all applications.

CISCO Systems, Inc. Aug 2007 - Dec 2013

User Interface Engineer/Architect

- Designed and built custom DOJO widgets for CUES, Cisco's internal UI toolkit.
- Developed a generic and scalable UI architecture.
- Specialized in the Flex charting framework, developing custom charts.
